

THE FRANKSTON FORESHORE RESERVE

The coast at Frankston extends 9.5km from Keast Park in the north to Kackeraboite Creek in the south. It is part of the traditional lands of the Bunurong people of the Kulin Nation. Today, the Frankston City Council is the management authority on behalf of the Victorian Government

The Foreshore Reserve ranges from long sandy beaches to rocky reefs and weathered cliffs at the iconic Olivers Hill. This high vantage point affords breathtaking views of the bay, distant mountain ranges and the hinterland.

The award-winning beach has significant infrastructure including clubrooms, boat ramps, piers and constructed and naturalistic walkways which support a range of popular active and passive recreational activities and events that attract hundreds of users every year.

The coastal environment supports important flora and fauna habitats, sensitive ecosystems and vegetation of state and local significance with three connecting creeks.

Our practical work sessions at foreshore locations are held every 2nd Tuesday morning in the month from March to October. Your support is invited and needed. Please contact Johan de Bree, Foreshore Activities Coordinator, on 0418 374 981 if you can assist.

We acknowledge the traditional custodians of the land and waterways and pay our respects to the Bunurong people and their Elders, past and present.

ENGAGEMENT AND ACTIVITIES

To achieve our aims, members engage actively in:

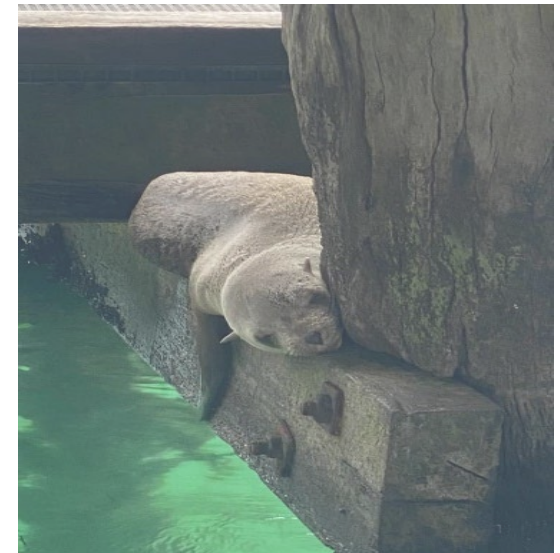

- Supporting traditional land ownership and cultural heritage and historic values;
- Collaborating with Frankston Council and marine and coastal management organisations;
- Collecting seeds and cuttings for propagation and plantings to bolster habitat for diverse coastal species;
- Supplementing coastal vegetation to support the vulnerable dunes against climate-related hazards and other threats;
- Removing environmental weeds, litter and pollutants;
- Protecting and promoting the magnificent landscape values and scenic views and vistas;
- Engaging schools and the community in important conservation and educational works;
- Encouraging the collaborative stewardship of landowners and providing advice and support;
- Monitoring built form and infrastructure proposals for their compatibility with marine and coastal values;
- Securing funding and grants for ongoing and new foreshore projects; and
- Liaising with Members of Parliament, Councillors and Council Officers.

"Preserving the beach for all to use"

WHO WE ARE

Since 1982, volunteer members of the Frankston Beach Association have taken up the challenge to preserve and enhance the natural features and values of the Frankston coastal and marine environment.

Your practical participation is highly valued.
